1.	Abstract	01
2.	Literature Survey	03
	2.1. Initial Investigation	04
	2.2. Problem definition.	04
	2.3. Evaluation of Existing System	05
	2.4. Cost Estimation.	05
	2.5. Software Selection.	07
3.		10
	3.1. Hardware Requirements	11
	3.2. Software Requirements	
4.	SRS(Software requirement specification)	
	4.1. Software Scope	
	4.2. Product Perspective.	
	4.3. User Classes and Characteristics	
	4.4. Features of Proposed System.	
	4.5. Functional and Non Functional Requirements	
5.	System Definitions	
	5.1.System architecture	
	5.2.Use Case Analysis	
	5.3. Sequence Diagram	
	5.4.Data Flow Diagram	21
6.		24
	6.1. ER Diagram	25
	6.2. Data Base Design	26
	6.3. Screen Design.	30
7.	Implementation	41
8.	Testing and Analysis	44
	8.1.Introduction.	45
	8.2.Test Case Analysis	45
	8.3. Objective of testing.	45
	8.4.Techniques of testing	45
9.	Conclusion.	48
	. Future Enhancements	50
	. User Manual	
	. Bibliography	
	. Coding.	55
